

Abstract of the Disclosure:

A vacuum cleaner includes several attachments and an attachment unit for accommodating the attachments. The attachment unit of the vacuum cleaner incorporates a crevice 5 tool, an upholstery tool, or an upholstery brush. The attachments are connected to the attachment unit in a force fit and/or positive fit. The attachment unit, preferably, has a base body, to which the crevice tool and/or the upholstery tool and/or the upholstery brush is/are connected.
